During AM call, SN was talking to Quanita. During conversation, Quanita stated "It's my fault." When questioned what she thought was her fault she explained that she thought it was her fault that she was in the hospital because her mother was sad. SN explained to Quanita that it was not her fault for being in the hospital. SN then asked, "Whose fault is it that you're in the hospital?" Quanita answered "Bruce." SN questioned "Who is Bruce?" Quanita answered "Daddy's friend." SN questioned "What did Bruce do?" Quanita replied "Bruce shot me - he's bad." She then looked worried & questioned "Is Bruce here?" I told her "no." She questioned "Does he have his gun?" I repeated "no, he isn't here & he can't hurt you." She then stated that she wanted to buy a gun to shoot him back. Quanita then said "I don't want to talk about it anymore."
